

September 27th

5:30 – 7:30

*‘strategies developed for
working with the most
difficult children’*

Paula Wick – Presenter

WEAC Region 2 is happy to announce an opportunity to hear from Paula Wick on ‘The Nurtured Heart Approach’. We have heard from many of our members on the need for ideas on dealing with the most challenging students and all that comes with such in today’s teaching climate. This presentation is designed to provide just that!

The **Nurtured Heart Approach**® is a relationship-focused methodology founded strategically in “The 3 Stands™” for helping children (and adults) build inner wealth and use their intensity in successful ways. It has become a powerful way of awakening the inherent greatness in all children while facilitating parenting and classroom success.

The Nurtured Heart Approach® is a set of strategies originally developed for working with the most difficult children. It has a proven impact with every child, including those who are challenged behaviorally, socially, and academically. NHA focuses on helping people use their energy well. In the process, the practice holds promise for reducing disproportionate disciplinary data. In this introductory workshop, you will learn the Three Stands® of the NHA and specific techniques that foster relationship. You will leave prepared to inspire great behaviors in yourself and your students.
